

QUILEUTE TRIBAL SCHOOL DISTRICT

Student User Consent and Release Form

The Quileute Tribal School Board of Directors recognizes that an effective public education system develops students who are globally aware, civically engaged, and capable of managing their lives and careers. The Board also believes that students need to be proficient users of information, media, and technology to succeed in a digital world. Therefore, the Quileute Tribal School will use digital resources as a powerful and compelling means for students to learn core subjects and applied skills in relevant and rigorous ways. It is the District's goal for students to use technology for important purposes in schools just as individuals in workplaces and other real-life settings. The District's technology will enable educators and students to communicate, share, collaborate and create, to think and to solve problems, to manage their work, and to take ownership of their lives.
